

Vital for Veterans

SENIOR MANAGEMENT WINTER REVIEW

Winter can be a challenging time for the veteran horse owner – keeping and improving physical condition, helping their joints cope with being stabled for longer periods of time, supporting them with the cold and wet whilst keeping their feet in good condition are all areas of concern.

Five Star performers for your horse's ever changing fitness regime.

Five Star Superflex Senior

"To keep our first ridden schoolmistress Hightops Dancing Bee flexible through the busy show season, we tried Superflex Senior and for us there is no going back. After 2 weeks we could already see the difference particularly in her length of stride, and overall happiness. Thank You NAF another amazing product!" **Gayle Holder, Holder Show Team**

Supports healthy, flexible joints in older horses and ponies still leading active lives.

Five Star treatment for healthy, flexible senior joints.

Billy Moran and Pearl Underwood's 16yo Broadstone Dolce Vita

Grooming range

"As a breeder and producer of young horses I need to ensure my team of horses stand out in the show ring and catch the judge's eye. The quality of turnout has to be superior which is why I use the NAF Grooming range at home and at shows. Prepare to be dazzled - I was. Highly recommended." **William Moran**

Make sure you stand out from the crowd with everything to clean, polish, shine, plait and perfect your horse.

Prepare to be magnificent.

In the Pink Senior

"I feed In the Pink Senior to my older show horses to help them gain perfect condition without over feeding. Both their coats and overall appearance are outstanding. It is also a product I recommend for young horses that are often rangy and lacking finish" **William Moran**. In the Pink Senior contains a digestibility enhancer, prebiotics, vitamins, minerals and herbal support of an alert and focused mind.

Feed In The Pink Senior and let your horse be an O.A.Performer!

Five Star Respirator Boost

Ever noticed those tell-tale signs of respiratory stress are increasing in your older horse? Do they clear their throat when you start to trot in the warm up, or maybe just tire earlier than they used to?

Respirator Boost contains fast acting herbal support for clear wind; feed when results matter.

Respirator Boost is the clearway to performance.

MPower

"I feed all of my horses on straight feeds and use supplements on a daily basis so I know what each individual horse requires to look their best. I use MPower because it naturally supports muscle development. It is a superior product for any horse struggling to maintain muscle.

I cannot recommend this product highly enough." **William Moran**

The Future of Muscle Power

Five Star PROFEET

Where you see compromised hoof health feed Five Star PROFEET to provide the optimum rate of biotin working in synergy with bio-available sulphur, the essential building blocks of healthy hoof wall and natural antioxidants.

Stamp out bad feet, nourish and protect with Five Star PROFEET.

Recover

Recover is ideal after long journeys, strenuous exercise and competition to support your old age performer's natural recovery process.

Put back in what you have taken out.
